

Equality and Safety Impact Assessment

The **Public Sector Equality Duty** (Section 149 of the Equality Act) requires public bodies to have due regard to the need to eliminate discrimination, advance equality of opportunity, and foster good relations between different people carrying out their activities.

The Equality Duty supports good decision making – it encourages public bodies to be more efficient and effective by understanding how different people will be affected by their activities, so that their policies and services are appropriate and accessible to all and meet different people's needs. The Council's Equality and Safety Impact Assessment (ESIA) includes an assessment of the community safety impact assessment to comply with Section 17 of the Crime and Disorder Act and will enable the Council to better understand the potential impact of proposals and consider mitigating action.

	Startpoint Sholing Childcare Nursery is a council run childcare nursery		
	registered by Ofsted to care for up to 26 children. All current children will be		
	nool in September 2024. The nursery employs 17.12 FTE		
	are female and predominantly part time. The nursery

Summary of Impa			
	opened, it has continued to incur a financial deficit year on		
•	SCC subsidies to break even. This deficit has continued		
to steadily increase year on year. A task and finish group was set up with			
colleagues from Finance and HR, Early Years and the Nursery Manager with			
input from Legal to address this. This resulted in several measures that were			
introduced which were successful in partly reducing the deficit. However,			
despite implementing successful changes, it has not been possible to identify			
a financially viable	structure for the nursery that would enable them to break		
even. The Early Years funding that is provided by central government, does			
not cover the costs of sustaining this nursery without the need for significant			
on-going council subsidies of £350k from the Council to cover the ongoing			
operational deficit.			
oporational denote			
Potential Positive Impacts			
Closure of the nursery would help to sustain neighbouring childcare			
provision, including a brand-new nursery development set to open in			
September within the local area.			
• The potential for redeployment of skilled staff to other areas of the			
council with staffing shortages would support further retention of			

 Further efficiency savings may be possible by utilizing the classroom currently occupied by the nursery for other key statutory services, thus providing a further capital and revenue saving to the Council.

Potential Impact

Impact	Details of Impact	Possible Solutions &
Assessment		Mitigating Actions
Age	Closure of the nursery could have an impact on future children aged. (2-, 3- and 4- year-olds) who may wish to access their early years education entitlement at the centre.	There has already been a significant expansion of childcare places being provided within the local area, with plans in place for further expansions by private and voluntary childcare service providers over the coming months. These will ensure the sufficient availability of childcare places within the local area in response to the increasing demands from parents/carers who rely on childcare to enable them to work.
Disability	Nationally, there is a growing issue of some parents of children with SEND, struggling to find availability of childcare places.	Any parents struggling to find suitable childcare would be supported as part of the Council's Childcare Brokerage Service. This free service operated by the Council's Early Years and Childcare service acts to help support parents/carers in finding appropriate suitable

Poverty	Childcare along with adult social care are considered to be the two of the lowest paid occupations. Many of those employed within these sectors are part time, many of which are also on universal credit.	Due to the critical staffing shortages within the childcare sector, all affected staff would be supported by the early years' service to facilitate and broker, new external
		employment opportunities for anyone wishing to continue to work within childcare.
		Alternatively, all affected staff will be eligible for alternative redeployment opportunities within the Council, should they be available.
Health & Wellbeing	Some members of staff currently employed within the nursery are being supported due to mental health or disability needs.	Ongoing support would continue alongside any redeployment opportunities. Failing that then employee assistance would be available as part of any redundancy considerations.
Other Significant Impacts	Statutory Childcare Sufficiency Duty - under the Childcare Act 2006 and Childcare Act 2016 all Local Authorities have a statutory duty to ensure that there is a sufficient supply of good quality, affordable, flexible, and inclusive childcare choices available in response to changes in parental demands for childcare.	The Early Years and Childcare Service has been working in collaboration with the sector to open 170 additional new early years childcare places by September 2024. With a further 220 new childcare places by September 2025 in response to the

Impact Assessment	Details of Impact	Possible Solutions & Mitigating Actions
		changes in childcare entitlements.
Affected Nursery Premises	The loss of income from the nursery could add additional premises costs to remaining Startpoint Sholing services, if the nursery was closed.	There are a number of alternative key services that could relocate and utilize the nursery space thus mitigating such financial pressures as well as potential efficiency savings through the relocation of services.
Legal Consultations	There is a requirement for a 45- day staff consultation and consultation with stakeholders and the public on the proposed closure of a council service.	The 45-day staff consultation process opens on 2 nd September 2024 and closes on 16 th October 2024. The consultation with stakeholders and public will commence from 2 nd September for a period of 6 weeks and closes on 18 th October 2024.
