Records R	eview and Retention Schedule		
Version	15.000	Approved by	Information Governance Board (via Senior Solicitor (Corporate))
Date last amended	20/01/2025	Approval date	20/01/2025
Lead officer	Matt Bunton, Information Officer (Data Management)	Review date	Continuous (by Information Officer)
Contact	Records.management@southampton.gov.uk	Effective date	20/01/2025 (but all previous entries and versions are effective unless amended in this version)

1. INTRODUCTION

- 1.1 This document is the Southampton City Council (SCC) authoritative Records Review & Retention Schedule (RRRS)
- 1.2. All agreed record review and retention details will be published in this document only. Business units must not hold their own forms or lists of review & retention guidance. Such forms/lists are not authoritative.
- 1.3. This document will be managed and maintained by the Senior Records Officer in Records Management on behalf of the Information Governance Board, who have corporate ownership of the council's records management policies and procedures.

2. PURPOSE OF THE RECORDS REVIEW & RETENTION SCHEDULE

- 2.1. All records created by the authority be they electronic, paper or any other media must have a review and retention period assigned to them, which covers them from creation, through use to final disposition. Electronic records also include any email that is created and held by a business unit as evidence of a business activity.
- 2.2. The review period specifies how long a record should initially be retained for before it is reviewed to decide whether it needs to be kept for justified further use, destroyed or is of public interest that it should be retained and available via the councils Archives services, part of Collections Team in Cultural Services.
- 2.3. Reviewing records assists in the specific requirement to properly manage all records created in accordance with council policies and legislation. Generally, they also assist in the smooth conduct of business to ensure cost-effective use of records is maintained. Reviews ensure that records no longer required are properly destroyed which supports the council's operations. However, it is also used to prevent the premature destruction of records and to identify those records worthy of permanent preservation
- 2.4. The review period assigned depends on legal, financial, or administrative reasons, which is why there are shorter and longer periods. Some records may need to be retained indefinitely by the Council because of legal requirements, council policy or, in the main, historical value.
- 2.5. The review & retention schedule promotes control over the council's records, enabling us to dispose confidently of records we no longer need, and ensure the retention of the minimum volume of records consistent with economy and efficiency. The retention of unnecessary records consumes staff time, space (both physical and cyber) and equipment. It may also contravene legislation such as the Data Protection Act and the General Data Protection Regulation 2018, which could have serious consequences for the authority. Failure to adhere to this policy and guidance may involve an investigation by the Information Commissioners Office (ICO) which could have financial and reputational implications for the council.
- 2.6. Procedures should be put in place to ensure that regular review and disposal of records takes place by business units, using this review & retention schedule. These procedures should be documented locally and available to all staff to refer to. They should contain a link to this document. It is not advisable to cut and paste a copy of this document as version changes may occur regularly.
- 2.7. Staff applying the correct review periods can then feel confident that the decision they have made is in accordance with the council's review & retention policies in force at the time of those reviews.
- 2.8. As part of the Corporate Information Governance requirement, all divisions within the authority are required to review the records they hold locally at least once a year. The Information Governance checklist that is issued twice a year will require Service Leads to assure that this is being carried out.
- 2. 9. It is recommended that regular periodic reviews are conducted. Advice on how to conduct these is available from the Senior Records Officer (see contacts section).

- 2.10. Items such as contracts, agreements, orders, deeds and leases are held by Records Management and they will carry out any relevant review process with the relevant divisions when necessary. In the case of records held by Records Management in the FMC series of deposits on behalf of business units, these will be recorded and destroyed by Records Management when the appropriate business unit has agreed they can be destroyed.
- 2.11. Records **must** only ever be physically disposed of in accordance with the Council's Data Handling and Reporting Incidents Policy available at this link: https://staffinfo.southampton.gov.uk/information-governance/policies-and-guidance/
- 2.12. To clarify, non-electronic records that are deemed fit for destruction must only ever be destroyed using an approved confidential waste service provider. Paper records, video tapes, audio tapes, obsolete floppy disks must **never** be placed in ordinary waste or recycling bins. Approved key sticks must be wiped clean. Electronic records can be deleted from shared folders in the normal way. Records held in specialist databases can be deleted in accordance with the system protocols. Electronic records must only be destroyed using the authority ITS contract.
- 2.13. Failure to comply with the correct disposal of any records may lead to disciplinary action.
- 2.14. In the case of disposing of paper records, small amounts can be placed in the confidential waste consoles in Civic Centre. The disposal of bulk amounts or for those offices not located in Civic Centre can be arranged via either the current service provider to Civic Centre or another approved service provider. Arranging for such disposal and the cost as well falls to the division concerned. The Information Officer can advise on alternative bulk disposal providers (see contacts).
- 2.15. Guidance on the recording of records that are destroyed is available in **RMPP 006a Records Review Log.**

3. FORMAT OF THE SCHEDULE

- 3.1. In order to assist colleagues to find an entry quickly a detailed index to the schedules precedes the actual schedules in this document.
- 3.2. Section A of this schedule is the corporate schedule. This covers all areas of the council and will satisfy the general records needs of most business units.
- 3.3. Some business units require specific entries for their specialist/unique types of records. These are listed separately from the corporate schedule in sections B to E inclusive. Educational establishments also have review and retention guidance and these are specifically included at section EB.
- 3.4. Services provided by partnerships which require this authority to set out retention periods are recorded under the Corporate Services Directorate entry.
- 3.5. The schedule is not an exhaustive list of all the records held by all business units with the council. The level is that of a type/series of records.
- 3.6. Some business units maintain detailed lists of all the files they have, but such detail will not be repeated in this schedule. If a business unit wishes to maintain details of all their files and retention periods applicable that is a matter for them. If so, they should include this in their documented local procedures for records management. The RMPP 006 Local Records Procedures Documentation template is available to assist business units in collating this guidance in one place.
- 3.7. To ensure consistency in the schedule and that it is maintained as up-to-date as possible, requests for amendments to the schedule to be considered must be submitted to:

Matt.bunton@southampton.gov.uk

3.8. Requests for amendments must include the schedule reference affected, clear reasons why and if the change is because of legislation requirements, details of the legislation applicable must be provided. For new entries to be added to the

- schedule, full details of where it should go, the description, applicability and any legislation that applies must be provided.
- 3.9. Business units must not assume that requests will be automatically approved and must not implement any changes to review & retention periods without confirmation of the approval of the request.
- 3.10. The Information Officer will consider the request and advise the Senior Solicitor (Corporate) who acts on behalf of the Information Governance Board, on the justification & implications for the changes. The Information Governance Board has responsibility for the corporate schedule.
- 3.11. The Senior Solicitor (Corporate) also has the approval of Directors to approve schedule amendments on their behalf. If necessary, the appropriate Directors will be consulted.
- 3.12. The Information Officer will inform the requesting officer of the decision. Where amendments are agreed the Senior Records Officer will amend the review & retention schedule, which is published on the intranet. These amendments will be version and date controlled to track amendments. These are recorded at **Appendix A** of the review & retention schedule.
- 3.13. Occasionally the application of part of the review & retention schedule may need to be temporarily suspended e.g. a court case is pending requiring certain documentation that is due to be reviewed & possibly destroyed. The Senior Records Officer will advise when such an issue arises and what procedures need to be put in place.

4. CONTACTS

For advice on Records Management policy and procedures including this schedule, and storage of inactive records:

Matt Bunton, Information Officer (Data Management)

For advice on the deposit of records as archival material open for public access as part of the city's cultural and historical heritage:

Jo Smith, Archivist

For advice on Freedom of Information & Data Protection:

Chris Thornton, Information Lawyer (Data Protection Officer)
