

# Share with Care

## Travel Code of Conduct for Green Spaces

To ensure the many different users of our green spaces are able to enjoy their visit, we are asking all park users to get to know the code of conduct and follow it at all times.

For the benefit of everyone, please act responsibly and be respectful of others users when travelling through our green spaces.

Be aware of other park users and allow plenty of space for them on shared paths.

Our parks are there to be enjoyed by everyone. Always be considerate and polite to those around you.

When cycling, allow plenty of space for passing other park users.

Southampton's parks and green spaces are SLOW ZONES. Please travel slowly and stop for other users when necessary.

Whether you are walking, running or cycling, when you want to overtake, don't use the grass or shrub beds as a short cut.

Use lights and hi vis clothing in low light conditions and when cycling please ring your bell or ask politely to pass.
