

COVID-19 Screens in Licensed Vehicles

The government have now issued some guidance on the fitting of screens inside Taxis and PHV's:

Driving and transport in the UK during coronavirus

[Coronavirus \(COVID-19\): safety screens for taxis and PHVs](#)

Page summary:

How drivers, vehicle owners and licensing authorities can use safety screens to protect themselves, their workers and passengers from coronavirus.

Change made:

First published.

Time updated:

10:49am, 3 March 2021

Our policy on the fitting of screens in vehicles remains:

We will not stand in drivers way if during the pandemic if they wish to fit screens in their vehicles. However, they must not interfere with any of the vehicle's safety systems or camera.

However, we will refer to these new government guidelines when examining screens and expect screens to comply with them. **Therefore, vehicle owners and operators should check to ensure that if they have a screen fitted that it is compliant with this new guidance.**

Russell Hawkins
Senior Licensing Officer
